NetSuite Offers Pie in Sky

SYDNEY – All new NetSuite customers that shut down on-premise servers and/or trade their legacy software will receive \$500 off every \$5000 they spend on NetSuite cloud business management suites.

Dubbed NetSuite “Cash for Clunkers”, the incentive program offers cloud computing systems to help businesses upgrade their on-premise software and hardware, paring back electricity use, and switching to an “efficient, cutting-edge, on-demand business management software suite.

The offer is valid for new customers signing up with NetSuite by October 31.
