

NetSuite Certification: SuiteCloud Developer II Exam Preparation

Course Description

The [NetSuite Certification: SuiteCloud Developer II Exam Preparation \(SuiteScript 2.0\)](#) course is designed to help you assess your readiness for gaining the NetSuite Certified SuiteCloud Developer II title.

This course prepares you to take the SuiteCloud Developer II Exam, an exam where all SuiteScript questions are using SuiteScript 2.0 syntax.

The course guides you through key subject areas and use cases as you review each test objective within the seven subject areas of the SuiteCloud Developer II Exam. Study materials contain information related to each test objective. You are provided a NetSuite demo account containing numerous SuiteScripts (all using SuiteScript 2.0) and workflows (SuiteFlow), along with SuiteTalk code examples in Java and C#. You can run the code examples to brush up on topics related to the exam objectives. By the end of this course, you should be able to evaluate your readiness to take the exam and identify where further study might be needed.

This course provides lecture, demonstrations, study materials and a NetSuite demo account to help you prepare for the NetSuite SuiteCloud Developer II Exam where all SuiteScript questions are using SuiteScript 2.0 syntax.

Who Should Attend

Software developers who are qualified to take the NetSuite SuiteCloud Developer II Exam. A description of a qualified candidate can be found on the [NetSuite Certification Program](#) site.

Prerequisites

Based on the description of a qualified candidate, participants should have one to two years of experience working with a range of SuiteCloud technologies and two to three years of relevant software development experience. Participants should have working knowledge on creating SuiteScripts (using SuiteScript 2.0), workflows (SuiteFlow) and integrations (SuiteTalk/RESTlets). Participants should also complete the NetSuite recommended training courses prior to this session to ensure they have the necessary product knowledge.

Course Topics

Topics covered mirror test objectives across the exam subject areas:

- SuiteScript 2.0
- SuiteFlow
- SuiteTalk
- SuiteBundler
- SuiteBuilder
- SuiteAnalytics
- Design Fundamentals

SuiteAnswers
