Increase B2B Sales and Reduce Costs
Shorten and error-proof the entire quote, order and production cycle.

NetSuite CPQ
Configure products and services, price orders and generate quotes.

“We have presented NetSuite CPQ with some of the most complex configurations that are imaginable in products and have not felt any limitations in the toolset. It really can automate what we can design on paper.”
Rick Bauerly, Founder and CEO, Granite Partners

Top 6 Reasons Customers Choose NetSuite CPQ

1. **Shorter Sales Cycles**
   Produce accurate quotes for custom products and close deals faster.

2. **Higher Conversion Rates**
   Respond first to sales opportunities and win more business.

3. **Streamlined Sales Training**
   Quickly ramp new hires so more sales reps achieve their quota.

4. **Error Reductions**
   Eliminate mistakes by pre-configuring business logic for attribute combinations and pricing.

5. **Greater Profit Margins**
   Reduce operating costs and grow annual profit margins.

6. **Seamlessly Upsell and Cross-sell**
   Recommend complimentary products and services to increase deal size.
